Professional Summary

Computer Science (Data Science) undergraduate with CGPA 8.62 and hands-on experience in Python, Flask, SQL, Machine Learning and AI application development. Built and deployed real-world projects, completed a Data Science internship, and enjoy solving practical problems through software.

Technical Skills

Python • Flask • SQL • HTML • CSS • JavaScript • Pandas • NumPy • Scikit-learn • MySQL • SQLite • Git • GitHub • VS Code • Render

Internship

Data Science Intern – InternsElite

- Worked on Python-based data science projects.
- Performed data preprocessing and feature engineering using Pandas and NumPy.
- Applied machine learning concepts to real datasets.

Projects

AI Software Development Team

- Developed a full-stack AI-powered software planning platform using Python, Flask, HTML, CSS, JavaScript and SQLite.
- Implemented authentication, project management, AI-assisted planning and PDF report generation.
- Successfully deployed the application on Render.

Movie Recommendation System

- Developed a content-based recommendation system using Python and Scikit-learn.
- Used CountVectorizer and Cosine Similarity for personalized recommendations.
- Applied preprocessing and feature engineering techniques.

Education

B.Tech – Computer Science & Engineering (Data Science)

PSCMR College of Engineering & Technology

CGPA: 8.62/10

Certifications

- IBM Python for Data Science
- NPTEL Python for Data Science
- Microsoft SQL Certification
- Data Science Internship Certificate
- Project Completion Certificate
